BEHAVIOR AT WORK GREATLY IMPACTS PRODUCTIVITY

In a recent study, TRACOM asked participants to share the top five causes of poor productivity at work:

- 84% said poor communication within or across work teams.*
- 57% said poor relationships among coworkers.*
- 59% said poor relationships with boss or supervisor.*
- 80% of the same participants surveyed said that SOCIAL STYLE training has helped them have more effective relationships with co-workers.*

PRODUCT DESCRIPTION

Understanding and Managing Behavioral Differences is TRACOM's one-day course that explores our popular and proven models of SOCIAL STYLE and Versatility, emphasizing improved interpersonal skills and workplace interactions. Through a series of exercises, videos, and facilitated discussions, participants will discover how to enhance workplace productivity and morale.

Participants will learn to identify each of the four SOCIAL STYLEs and the best plans of action to work with and accommodate each. Through exercises, participants will pinpoint areas of tension and understand the reason for backup behavior, which can ultimately lead to toxic relationships if left unchecked. Your employees will also be able to describe the Versatility dimension and define sources of social endorsement while identifying the steps to take to increase their Versatility and success at work.

Understanding and Managing Behavioral Differences' one-day format allows for maximum participation and workplace application training while fitting within time restrictions.

VERSATILITY

Versatility is a measure of a person's Image, Presentation, Competence, and Feedback, the areas that contribute to a person's interpersonal skills. Versatility is a significant component of overall success, comparable to intelligence, previous work experience, and personality.
